

Runaway (feat. Nadia Ali)

Iio & Nadia Ali

Can we go away and never turn around again?
On an escapade and always keep the vision
Can we open out and spread ourselves around the
sand?

Captivate the sun, keep the light till the world ends
Runaway, runaway
Runaway, runaway
Take away the wall and break away my defense
Candle by our side and never let the rain begin
Runaway, runaway
Runaway, runaway
We're a part of a plan and it's already written
There is no other way, it's inside our every sense
Earth is our island
(Earth is our island)
Earth is our island
(Earth is our island)
Runaway, runaway
Runaway, runaway
Karma, am I yours is that your intuition
If that is your word, I'm the definition
Earth is our island
(Earth is our island)
Earth is our island
(Earth is our island)
Runaway, runaway
Runaway, runaway
In our destinies, this is what was missing
Echo in my mind, even through my distance
Runaway, runaway
Runaway, runaway
Runaway, runaway
Runaway, runaway
Runaway, runaway
Runaway, runaway
We're a part of a plan and it's already written
Candle by our side and never let the rain begin
