

Life's a Mess

Juice WRLD & Halsey

[Intro: Juice WRLD]

Have you ever fallen head over heels for somebody?

Not just somebody

No, no

(Rex, you did it?again)[Verse 1: Juice WRLD]

Have you ever fallen head over heels for somebody

That made promises to give you the world? Um

I really hope they held you down

I really hope it was no lying

'Cause when heart breaks it feel like the world's gone

But if the love's real, you'd feel your soul roar like a lion

And you'd finally let bygones be bygones

Don't throw in the towel, I know it feels like you're the only one trying

You just gotta learn to live and love on

[Pre-Chorus: Juice WRLD]

I belong with the one put on this earth for me

Everybody has their someone, just gotta look and see

I'm screaming out, Lord, help me, I've been lonely

That's when you accept me, then you set me free[Chorus: Juice WRLD]

Uh, sometimes life's a mess

Uh, I get high when I'm upset

I remember when me and love didn't click

Searchin' for somethin' real, then I found it

Uh, sometimes life's a mess

Yeah, I get high when I'm upset

I remember when me and love ain't click

Lookin' for somethin' real, then I found it

[Verse 2: Juice WRLD]

Been pretty fuckin' bad, but it's better now

Through the trials and tribulations, I found my way out

Feel all of the good and bad vibrations all around

All around us, they surround us

Was a lost cause with some lost love

It ain't my fault, pain chose us

Then I found her

My whole world turned upside down, uh

But for the better

[Pre-Chorus: Juice WRLD]

I belong with the one put on this earth for me

Everybody has their someone, just gotta look and see

I'm screaming out, Lord, help me, I've been lonely

That's when you accept me, then you set me free[Chorus: Juice WRLD & Halsey]

Uh, sometimes life's a mess
Uh, I get high when I'm upset
I remember when me and love didn't click
Searchin' for somethin' real, then I found it

Uh, sometimes life's a mess
Yeah, I get high when I'm upset
I remember when me and love ain't click
Lookin' for somethin' real, then I found it

[Verse 3: Halsey]

Thank God I finally found you
You put the light in my eyes when I'm around you
I'm too flawed to hold you down, but
Don't wanna be here alone
And I thank God I finally found you
I'll put the light in your eyes if I'm allowed to
I'm too flawed to hold you down, but
Don't let me be here alone
