

Don't Want You Back (feat. Kiesza)

Bakermat

Baby, you can go about your business
No use in waiting up for me at night
The only thing that is on my wish list
Don't take another second of my time Little man, now can't you see?
I'm so done with you and me
Sick of living fantasies
It's not right, it's not life
You've been blind and so naive
You can't escape reality
You're not the man of my dreams tonight, no lie Don't want you back, back, back, back
No point in begging on your knees
Nothing that I haven't seen before
Don't want you back, back, back, back
I'm done with all this, "Baby, please"
You ain't gonna fuck with me, no more
Don't want you back, back, back, back
No point in begging on your knees
Nothing that I haven't seen before
Don't want you back, back, back, back
I'm done with all this, "Baby, please"
You ain't gonna fuck with me, no more Heey-heey
Don't want you back
Heey-heey
Heey-heey
Don't want you back
Heey-heey You could never end a war with flowers
Decent love will overshadow hate
Our love has joined a new world, going better
Sick of burning candles in the rain
Little man, now can't you see?
I'm so done with you and me
Sick of living fantasies
It's not right, it's not life
You've been blind and so naive
You can't escape reality
You're not the man of my dreams tonight, no lie Don't want you back, back, back, back
No point in begging on your knees
Nothing that I haven't seen before
Don't want you back, back, back, back
I'm done with all this, "Baby, please"
You ain't gonna fuck with me, no more Don't want you back, back, back, back
No point in begging on your knees

Nothing that I haven't seen before
Don't want you back, back, back, back
I'm done with all this, "Baby, please"
You ain't gonna fuck with me, no more
All this toxic conversation
Every word has gone to waste
Is your bitter medication
Let me know how that taste
I come to a realization
You're just in love with the chase
Best believe you tried my patience
Ended up hands at stake
Don't want you back, back, back, back
No point in begging on your knees
Nothing that I haven't seen before
Don't want you back, back, back, back
I'm done with all this, "Baby, please"
You ain't gonna fuck with me, no more
Don't want you back, back, back, back
No point in begging on your knees
Nothing that I haven't seen before
Don't want you back, back, back, back
I'm done with all this, "Baby, please"
You ain't gonna fuck with me, no more
