

# Citizens

[Alice Russell](#)

Citizens of planet earth don't get caught in the act  
Don't strive to destruction the flash it's just that  
There's something behind these walls, something under the sheets, I stay  
A truth that's been locked in way down in me You've got to get up, around your space  
And take a, take a little time to contemplate  
Will we ever see what it's like behind these walls  
And are you, are you still moving up everytime you fall, you fall Think a little about what you  
got  
Stop, think a little about what you got  
And start again I could be you, you  
And you, you  
You could be me, me  
And I, I, I could be you, you  
And you, you  
You could be me, me  
I could be you, you  
And you, you  
You could be me, me  
And I, I, I could be you, you  
And you, you  
And this we learned we would be free
