

Friday Morning

Khruangbin

You are pretty colors
Find you in the morning You get lonely when it's cold
But you got fire, ooh
Find you, find me
Let's go and burn together, ooh Same as previous verse
One dream to another
I'll fall, you come with me
Same as Previous chorus
You get lonely when it's cold
But you got fire, ooh
Find you, find me
Let's go and burn forever, ooh
Na, na, na, na...
Long live laura lee
