

# Unspoken

Jaci Velasquez

I hear daily news  
People cry out for their freedom  
My eyes turn to You  
Don't they know, Lord, You can lead them  
If we all pray for peace  
Change will come I believe  
As we face the unknown  
God heals us when we're broken  
He is there, use your voice  
Reach for Him, make a choice  
None of us are alone  
Don't leave your heart unspoken  
God heals us when we're broken  
Don't leave your heart unspoken  
I pray save our souls  
Help us find a new direction  
We're lost in the cold  
Let Your arms be our protection  
If we all pray for peace  
Change will come I believe  
As we face the unknown  
God heals us when we're broken  
He is there, use your voice  
Reach for Him, make a choice  
None of us are alone  
Don't leave your heart unspoken  
God heals us when we're broken, He heals us  
Don't leave your heart unspoken  
Out of the dark into the light  
He is there for us with all of His might  
He has the answers, He hears your prayers  
Turn every corner you'll find Him there  
Don't leave your heart unspoken  
If we all pray for peace  
Change will come I believe  
As we face the unknown  
God heals us when we're broken  
He is there, use your voice  
Reach for Him, make a choice  
None of us are alone  
Don't leave your heart unspoken  
God heals us when we're broken  
Don't leave your heart unspoken
