

# Heartbreak Road

Bill Withers

Wonder who is waiting for me  
At the end of Heartbreak Road  
Hope that she'll be tender  
Someone I can know. Heartaches just don't last forever  
But it's a lonely road  
A road we all must travel  
Once before we go. I believe that love's a good teacher  
When you're in it  
And even if it don't work out  
You ain't gone never understand it  
'Til you're all down in it  
And find out what it's all about  
But that's all right because  
Heartaches just don't last forever  
But it's a lonely road  
A road we all must travel  
Once before we go.
