

Tongue Demon

SahBabii

She's a tongue demon
Pill on her tongue, dick on her tongue, ooh, ooh, yeah
Hypnotized by your body, like the way you move, yeah
Her skin smooth, her body smooth like chocolate mousse, yeah
Ooh, ooh, yeah I'm in her throat like a Popeyes biscuit
Look here bitch, I can suck on them titties
Glock hanging out, you can see the lil' dicky
I mix with yellow, bitch, I'm giving out quickies
That ass fat, she go 'round like a weekly
Surrounded by shooters, you never can sneak me
Marsupial superstar, started a species
Fuck around, buy a bazooka and blow up the block
Too many shots, 'bout to blow up the Glock
Nice ice, bitch glow in the dark
Put that pussy on cruise control, baby, don't park
Yeah, and when she run out of gas, she see it go start
She's a semen demon, straight up conjuring
That pussy fat, so astonishing
Told her suck it, suck it with some confidence
I'ma cover them buns like a condiment
When she changing her clothes, give her closet dick
That pussy too wet, it might clog in it
Told her throw that ass back, girl, you hogging it
Got that pussy breathing like a frog in it She's a tongue demon
Pill on her tongue, dick on her tongue, ooh, ooh, yeah
Hypnotized by your body, like the way you move, yeah
Her skin smooth, her body smooth like chocolate mousse, yeah
Ooh, ooh, yeah
She like that way that I ooh
Eat that dick up, that's a Rap Snack
She move her body like a sexy snake
I'ma butter them cakes like a flapjack
She get the dick hard like a popsicle
Babygirl, suck on this popdickle
Redhead bitch, call her Devil Head
That pussy gooey like deviled eggs
Monkey nuts on my shit make the devil scared
They deeper than us, but we can still take it there
I might just take it there, I'm tryna stay level-head
Blow the brains out his ass
Separate the head from the dreads
Separate the body from the legs

Separate the fingers from the hands
Don't get smoked 'bout a bitch 'cause she in a 2.0 stance (Ain't talking cannabis)
YeahShe's a tongue demon
Pill on her tongue, dick on her tongue, ooh, ooh, yeah
Hypnotized by your body, like the way you move, yeah
Her skin smooth, her body smooth like chocolate mousse, yeah
Ooh, ooh, yeah
