

Losers

S

This is how losers feel
I am a loser
And you're here to remind me
That this is how losers feel
I am a loser
And you're here to remind me
Some people say they don't fit in
and they can't remember if they ever did
They try and hang out with cool kids
hoping the greatness would shine on you again
but you're getting old and no one gives a shit
it's not in your head
this is the way life is
You finally meet a girl who loves you
and then she leaves for someone so much better
you kind of think that things might change
but you turn around and you're still in last place
and the winners always win
it's the way it's always been
and the winners always win
it's the way it's always...
