

# Be One

## Killswitch Engage

With conviction you must  
Stand your ground  
Don't be deceived  
Strength is salvation It is so easy to live  
The life of a follower We must kill the idols  
Don't fall prey to seduction  
With single mindedness  
We must pursue the truth Nevermore the victim  
Let them say that we  
Are not of their world  
With the promise of life  
We are strong  
We will carry on Kill the idols No more disillusion  
Let them say what they will what they will  
Their answer to our higher calling  
Is conceived by their hatred Nevermore the victim  
Let them say that we  
Are not of their world With the promise of life  
We are strong  
We will carry on  
With the promise of life  
We are strong  
We will carry on  
Be one, for your conviction  
Be one for your devotion you will be hated  
For your dedication you will be hated  
You will be hated With the promise of life  
We are strong  
We will carry on
