

# Living Each Day (feat. Connan Mockasin)

[Kirin J Callinan](#)

His daddy said  
On his deathbed  
"Son  
Live each day" Or maybe he read it  
On a fridge magnet  
Either way  
He's gotta live each day So he wrote up a list  
Of people to thank  
Live each day Withdrew his savings  
From the National Bank  
He's gotta live  
Like it's his last  
You better live each day  
Like it is your last (Live each day like it's your last)  
Shrug off the urge to systematically kill (Live each day like it's your last)  
Go rollerblading round the Beverly Hills Live each day like it's your last one  
He asked his  
sweetheart  
Out to dance  
Live each day Then hugged and kissed her  
When he got the chance  
Live each day Then he, he had a sandwich  
Truly loved that sandwich  
Like it was his last  
You better live each day  
Like it is your last (Live each day like it's your last)  
Shrug off the urge to systematically kill (Live each day like it's your last)  
Go rollerblading round the Beverly Hills (Live each day like it's your last)  
Shrug off the urge to systematically kill (Live each day like it's your last)  
On second thought just do whatever you feel Live each day like it's your last one  
Living a day  
like it's your last  
Living a day like it's your last  
Living a day like it's your last  
Living a day like it's your last  
Living a day like it's your last  
Living a day like it's your last  
Living a day like it's your last  
Living a day like it's your last
