Best Years of Our Lives

Orchestral Manoeuvres In the Dark

Where we're going Heaven knows {we're} lost and falling And it showsAnd I know you won't believe me And I know it won't seem right And I beg you just to leave me When we'd argue and we'd fight But even as we stumble Through the darkness and the light You know these were The best years of our livesSent to hurt me And you will Tear the seasons From the hill And I know you won't believe me And I know it won't seem right And I beg you just to leave me When we'd argue and we'd fight But even as we stumble Through the darkness and the light You know these were The best years of our livesAnd I know you won't believe me And I know it won't seem right And I beg you just to leave me When we'd argue and we'd fight But even as we stumble Through the darkness and the light You know these were The best years of our lives And I know you won't believe me And I know it won't seem right And I beg you just to leave me When we'd argue and we'd fight But even as we stumble Through the darkness and the light You know these were The best years of our lives
