

Speechless

[Rachel Platten](#)

Why does this part always go so fast?
And I really want this to last so bad
Words distract us but we know the truth
So hush baby, my heart's speaking to you Just give me that touch, I want it
Quit talking too much, I'm ready
Stop moving your lips and kiss me
Keep taking my breath away 'Cause you make me speechless
You quite my demons
So why don't we hold tonight and just kill me silently?
I don't need a reason when you make me speechless
We're getting loud tonight, we're allowed tonight to be
Come on baby, make me speechless
Come on baby, make me
Body language screaming everything
Keep it giving it to me, fire away Just give me that touch, I want it
Quit talking too much, I'm ready
Stop moving your lips and kiss me
Keep taking my breath away 'Cause you make me speechless
You quite my demons
So why we don't hold tonight and just kill me silently?
I don't need a reason when you make me speechless
We're getting loud tonight, we're allowed tonight to be
Come on baby, make me speechless When you're touching me, when you're kissing me
Nothing left to say, I'm speechless
Get ahold of me, kill me silently
Nothing left to say
'Cause you make me speechless
You quite my demons
So why we don't hold tonight and just kill me silently?
I don't need a reason when you make me speechless
We're getting loud tonight, we're allowed tonight
Come on baby, make me speechless
Come on baby, make me shhh
Come on baby, make me speechless
Don't say a word
Come on baby, make me
