

# All My Love (feat. Ariana Grande)

## Major Lazer

Sometimes I think we're the brightest stars  
And I try to believe we'll find a way  
Will lives change when our hearts turn colder?(Major Lazer)All the rhythms in my heart lift me  
up inside  
We can't stay out of trouble, is it worth the blame?  
Is it true that the more you give, the more they take?  
All the rhythms in my heart lift me up and sayOnly love will make us ache  
Only love is worth the chase  
All my love, I know we're ready for this  
All my love's up on the mountain topsAll my love, all my love  
All my love's up on the mountain top  
All the rhythms in my heart lift me up and say  
We're just a messed up, broken people  
But we love again  
I would do anything for love  
It's worth the pain  
All the rhythms in my heart lift me up and sayOnly love will make us ache  
Only love is worth the chase  
All my love, I know we're ready for this  
All my love's up on the mountain topsAll my love, all my love  
All my love up on the mountain top  
All my love, all my love  
All my love up on the mountain topYou are always on my mind  
All throughout the day  
Day where we can fly  
Reach the glory haze  
High up in the sun and above the sky  
Sun and above the skyOnly love will make us ache  
Only love is worth the chase  
All my love, I know we're ready for this  
All my love's up on the mountain topsAll my love, all my love  
All my love up on the mountain top  
All my love, all my love  
All my love up on the mountain top
