

Irresistible Force

Jane's Addiction

We didn't know that it would blow up
With such might
The stars are even brighter
Contrasted by the night Sent out the shock waves
Filled up the outer space
Even the ghost came
To the late, late, late show, watch us play Ooh, everything went tossing
Everyone was talking
Making up their faces
Wonder what we look like naked? Ah, the irresistible force met
The immovable object, oh
Ah, the irresistible force
Met the immovable object
Banging and banging, and banging
And banging, and banging together We've become a big business
Oh, a galaxy merger
Two of us a big bang, yeah
God is a real man, God isn't dead, God isn't dead Ah, the irresistible force met
The immovable object, oh
Ah, the irresistible force
Met the immovable object Banging and banging, and banging
And banging, and banging together Ah, the irresistible force met
The immovable object, oh
Ah, some may call it a lucky shot
No, no, no, but it was not
Banging and banging and banging
And banging and banging
Banging and banging, and banging
And banging, and banging together
