

Tennies

Tkay Maidza

You don't wanna start it
You don't wanna put me on
You don't wanna start it
When I put my tennies on
When I put my tennies on
When I put my tennies on
When I put my tennies on, tennies on, tennies on
You don't wanna start it
You don't wanna put me on
You don't wanna start it
When I put my tennies on
When I put my tennies on
When I put my tennies on
When I put my tennies on
When I put my tennies on
Let me break shit let me drop it
Let me break shit let me drop it
Let me break shit let me drop it
Let me break shit let me drop it
You don't wanna start when I'm on this, no
Check they wanna act to but don't
Their chin chins gonna chat to and fro
And they want us us 'cause their tools don't go
So doomed what they gotta do when I go let
My tresses down, they stopping what they can't get
Better watch if you don't be I dodge two steps
If they dick down I'm gonna switch to bless
Never see me coming but he making moves yet
You be on your knees begging for this mmmm yesss
I be out with these I'm looking for that new press
Then you'll follow me looking like a pubescent
I don't give cheese, make 'em do a cool test
In a new scene and I dip do best
Come with the truth and I hold the weight, shoot guests
And I wouldn't rock yours they're the only shoes left
You don't wanna start it
You don't wanna put me on
You don't wanna start it
When I put my tennies on
When I put my tennies on
When I put my tennies on
When I put my tennies on

When I put my tennies on
Let me break shit let me drop it
Let me break shit let me drop it
Let me break shit let me drop it
Let me break shit let me
Stamina, I'm keeping it
I be your bitch pressed
Can't keep up 'cause I flow and glow
Stand up if you're feeling it
I'm in this alone
These posers think they win but don't
Jam jam get your cans this your brandy
Jam jam if you can, if you fancy
They span span, isn't grand when they're prancy
Their time limit is little min is at sea
They never know when they gonna lose next
They two steps back I'm making moves yep
Try to stop my stride, watch your dude next
I go, don't wait, no space for regrets
I'm making it known I never take shit
My team honest, yours never tell it
I harvest, take flaws and invent hits
You snake and fake more I repent this
You don't wanna start it
You don't wanna put me on
You don't wanna start it
When I put my tennies on
When I put my tennies on
When I put my tennies on
When I put my tennies on
When I put my tennies on
I'm a big slammer you should know
Big slammer you should know
Big slammer
Big slammer
I'm a big slammer
Big slammer
Big slammer you should know
Big slammer big
I'm a big slammer you should know
You don't wanna start it
You don't wanna put me on
You don't wanna start it
When I put my tennies on
When I put my tennies on
When I put my tennies on
When I put my tennies on
When I put my tennies on
When I put my tennies on

When I put my tennies on
When I put my tennies on
When I put my tennies on
