

# Full Swing (feat. Pell)

AlunaGeorge

Droppin' all that dead weight  
Light the candle in my head  
Droppin' all that bad vibe  
Tearin' up my new frontier  
Brushin' up my big right Ready for anything  
So let me hear the bell ring, light it up Got my body in full swing  
And my mind like a machine, light it up  
Got my body in full swing  
And my mind like a machine, light it up  
Light it up now, light it up  
Got my mind like a machine, light it up  
Light it up now, light it up  
And my body in full swing, light it up  
Hold up for your count  
Let go for the dance  
Touch me like that Fendi  
Let's get lost inside a trance  
Step into my office  
First lesson on me  
Show a few moves that you just can't teach  
Give you new highs that you just can't reach  
So intense that you just can't speak  
I've been a gentleman  
I've been a gentleman, Black New Orleans  
But we only get it started, don't take that scene  
Woah, full swing like you on my tempo  
Slow dance, let your feelings tip-toe  
Starin' at your eyes, whole crystal  
And you lookin' like Day, no French though  
Old man teabaggin', no Cliff Notes  
But you read through it, now we this close  
No words 'cause our bodies are this close  
Goin' full swing 'til it get old  
Ready for anything  
So let me hear the bell ring, light it up Got my body in full swing  
And my mind like a machine, light it up  
Got my body in full swing  
And my mind like a machine, light it up  
Light it up now, light it up  
Got my mind like a machine, light it up  
Light it up now, light it up  
And my body in full swing, light it up I, I, I

You're on my mind, bae you're comin' home  
And I, I, I, I  
Light up my life, when you're comin' home  
I'm alive for you, I get high for you  
I'm alive for you, ooh, ooh-oo-oo  
I'm alive for you, I stay high for you  
I'm alive for you, ooh, ooh-oo-oo Got my body in full swing  
And my mind like a machine, light it up  
Got my body in full swing  
And my mind like a machine, light it up  
Light it up now, light it up  
Got my mind like a machine, light it up  
Light it up now, light it up  
And my body in full swing, light it up Got my body in full swing  
And my mind like a machine, light it up  
Light it up now, light it up  
And my body in full swing, light it up
