

Duet

Gonjasufi

Where did you find me?
Baby, don't you undermine me.
You can refine me, you have perfect timing.
You remind me of someone I've met before.
Please underline me and let your wetness show. Let's do it do it. Let's duet
and make it grimy, the way that the truth is.
To the dotted line, you will never sign me. You remind me of someone I have let go.
Baby you're shiny, sweetheart you have that glow.
Let's keep it fluid, make me some music.
Baby I'm winding; lady you have that soul.
