

Throwdown (Rob Gasser Remix)

Fox Stevenson

I would like if you could see,
that something different's what we need.
If I said change,
I hope you'd say yes.
Because everybody knows you're just a problem
that looks great in a little black dress.
Dress to impress You know we need one more throwdown,
with no opinions or changes of heart.
You we needed this right from the start.
Well I'll be fine 'cause you left me,
a little time for me to be, someone else
someone without you.
So I'll give what you took right back.
Live like I wish I had.
You didn't treat me right,
but you didn't want to.
If it's real why can't we see it?
If it's so strong why can't we feel it?
'Cause it's all gone, you better believe it.
It feels so wrong, but you know I need this
You know we need one more throwdown- You know we need one more throwdown,
with no opinions or changes of heart.
You we needed this right from the start.
