

# Cut Throat

## Razor

Damage done, aggressor convicted  
Abandoned, abolished for shame  
Quest for duty and crucifixion  
Sharpens the wretched blame  
Painstaking, spiritual making  
Head strong, ceaseless stare  
Aroused by vulgar carcass  
Diseased from iron ware  
Cast iron imprisonment, trash in agony  
Outcasts are butchered, and seized in slavery  
Cut throat  
Panic stricken, scorched and marked  
Barbaric disaster is near  
Disease and degradation  
Misfortune after fear  
Piston strength, the archway is worshipped  
The tempest disciples repent  
The wreckage is salvaged and souls recovered  
The followed, disposed and resent
