

# Tonight's Not the Only Night

## Paloma Faith

Tonight's not the only night  
It's not over  
Sometimes what you really want gets away  
Tonight's not the only night  
You know when you get it right  
You'll recover  
There'll be another My god he was sweet  
I can see why you thought he'd save you from the tortured life  
But oh what a creep  
Did he have to get hold of that whore right before your eyes  
Oh who you need  
Might be a little different to the one you thought you wanted  
'Cause all that glitter ain't gold  
Hold on to your rock n roll  
Tonight's not the only night  
It's not over  
Sometimes what you really want gets away  
Tonight's not the only night  
You know when you get it right  
You'll recover  
There'll be another Don't lose your sleep  
I love you too much to sit back and watch you going crazy  
Remember to eat, life is long  
You only need one who thinks you're amazing  
Oh I can feel you falling apart  
It's breaking my heart, I can see it  
'Cause all that glitter ain't gold  
Hold on to your rock n roll  
Tonight's not the only night  
It's not over  
Sometimes what you really want gets away  
Tonight's not the only night  
You know when you get it right  
You'll recover  
There'll be another Ain't no man gonna make you whole  
Ain't no drug gonna sooth your soul  
Keep on dancing girl lose control  
Keep those expectations low  
Another bitter pill to swallow  
Yeah you're always gonna have tomorrow  
Cause all that glitter ain't gold  
Hold on to the heart he stole

That's right Tonight's not the only night  
It's not over  
Sometimes what you really want gets away  
Tonight's not the only night  
You know when you get it right  
You'll recover  
There'll be another Tonight's not the only night  
It's not over  
Sometimes what you really want gets away  
Tonight's not the only night  
You know when you get it right  
You'll recover  
There'll be another
