

Watch (feat. 070shake)

Vado

watch it watch it watch it coz we coming for the light,
watch it watch it watch it got a 40 for tonight,
never ask for help because we did it on our own,
please do not come close coz you'll never be a friend to me,
take a couple steps and you gon make me catch a felony,
please do not come close because you'll never be a friend to me,
take a couple steps and you gon make me catch a felony,
a felony oh oh oh,
Gotta bad bitch with me right now,
sl550 with the top down,
ridding round dressed clean with the seats chalk brown,
rose gold gmt when the king rock crowns,
just hit the scene, tryin to feast not now,
nothing in this jeans but this mean glock pound,
334 key you can bring a lot now,
on 13th we can meet a block down,
sitting in the cell coz they gave me no bail,
thinking to myself what this lady don't tell,
played it so well would've put in no scale,
making both sell should've gave them both hell,
aint never gon fail what I look like nigga,
[?] in this war not the suge type nigga,
have you sorta scared like a suge type nigga,
hit him in his bed on a good night nigga,
goodnight nigga
uh!
my nigga we ready aint none of us hidding
my niggas is chevys and all of us ridding
snatch him right out of his coupe
tie him with rope, now we deciding
[??] gon leave him with smoke after we [?] all of us firing[chorus]
watch it watch it watch it coz we coming for the light,
watch it watch it watch it got a 40 for tonight,
never ask for help because we did it on our own,
please do not come close coz you'll never be a friend to me,
motherfuckers can't wait see your breathe stop,
or found dead from a headshot,
snatched by the feds when the check pop,
but I'm broke like I'm red fox,
what I need to dress pop with some dreadlocks to be hiphop,
I'd rather spit how to stretch rock bottle it with red tops,
how to make it alive from a dead block,

blue chucks pull the red socks,
yell slime all the time bitch you better not,
next stop nigga where to,
I'm on the money train all my niggas here to,
this hublot bust down for your clearview,
nigga all glam [?] a face see your rearview,
we all strapped by the waste nigga airhoop,
I pull up infront with a couple of trucks then we blast off,
take every chain that they had on,
then look in they eyes with my mask off,
no lie fuck niggas fuck bitches get money get high,
open the fridge in the s65,
niggas hoping to live or just to get by,
rolling the lid [?] just hit God,
it is what it is we can let that shit fly,
drop enough bread make your man give you two,
in the back of the head while you still with your crew,
you said what you said and I hand you a few,
we even gave you a scam and you ran to the moon,
everyday a new star player new park,
can't be in your old ways with a new heart,
its not like the old days gotta move smart,
can't even get an okay to who the shoe marked,
listening to ojays in the coupe parked,
with a [?] like ojay like I aint do it nah![chorus]
