

# Sleeping

## Houses

Forty years  
Sleeping in your car while he gets high Long winter blows  
Sleeping on the phone while you pass by How long, how long  
And how long will I wait  
Before it's gone? You long for more  
You head away from all you love There are no worries  
There in the trailer park again Sleeping  
You're  
Sleeping  
How long, how long  
And how long will I wait  
Before it's gone?
