

Simple Survival

Mushroomhead

The shadow within me
The sorrow at my feet Push the colors from the make up
Drop your feelings at the door
Has anybody here had enough
Walking in on so much more
Gonna make you give up
I wanna see you get up I said you're the only one, I said
What's your name, Who do you love
I wanna hate you, kill you
Treat you like I've had enough
What's your name (What's your name?)
Who do you love (Who do you love?)
I wanna hate you, kill you
Treat you like I've had enough
Gonna make you give up
I said you're the only one x3, I said Keep breaking the shame
Take away what I wanna say
Regretting the day
You don't believe in me, You don't believe in me
I'll show you just what you wanna see
The end in me Push the colors from the make up
Drop your feelings at the door
Has anybody here had enough
Walking in on so much more
Gonna make you give up
I wanna see you get up Come on people, get up What's your name, Who do you love
I wanna hate you, kill you
Treat you like I've had enough
The shadow within me
The sorrow at my feet
The shadow within me
Gonna lead the revival
No simple Survival
For me
What's your name (The shadow within me
The sorrow at my feet, Gonna lead the revival
No Simple Survival for me) Who do you love (The shadow within me
The sorrow at my feet, Gonna lead the revival
No Simple Survival for me) What's your name (The shadow within me
The sorrow at my feet, Gonna lead the revival
No Simple Survival for me) I said, Keep breaking the shame
Take away what I wanna say

Regretting the day
You don't believe in me, You don't believe in me
I'll show you just what you wanna see
The end in me
