Dying

Hole

You see the cripple dance Pay your money, baby Now's your chance Eyes like cyanideI am so dumb Just beam me up I've had it all forever I've had enoughRemember, you promised me I'm dying, I'm dying, please I want to, I need to be Under your skin Our love is quicksand So easy to drown They steal the gravity, yeah From moving groundRemember, you promised me I'm dying, I'm dying, please I want to, I need to be Under your skin... And now I understand You leave with everything You leave with everything I amWithering And now I know that love is dead You've come to bury me There's nothing left here to pretend Anything Remember, you promised me I'm dying, I'm dying, please I want to, I need to be Under your skin I'm dying, I'm dying, please I'm dying, I'm dying, please I'm dying, I'm dying, please Under your skin Under your skin
