My Love (Acoustic)

Jess Glynne

There's nothing more that I would have that I could need
Cause having this means that I've got it all
When I was taking turn and you were wrong for me
You chose to understand and let it goAnd oh, You've turn this black heart made it into gold
So I wanna let you know thatMy love and my touch, up above is made with the warmth of my
My love and my touch, up above is made with the warmth of my love

Looovve

Control is such an open end it worked for me Something that I used to think I owned I'm standing here with none I'm feeling so complete

You helped me understand to let it goAnd oh, You've turn this black heart made it into gold So I wanna let you know thatMy love and my touch, up above is made with the warmth of my

My love and my touch, up above is made with the warmth of my My love and my touch, up above is made with the warmth of my My love and my touch, up above is made with the warmth of my love

Stay close to me, oh Stay close to me, yeah, love Stay close to me, love

My love and my touch, up above is made with the warmth of my
My love and my touch, up above is made with the warmth of my
My love and my touch, up above is made with the warmth of my
My love and my touch, up above is made with the warmth of my love
