

# Love Money Party (feat. Big Sean)

Miley Cyrus

Money ain't nothing but money when you get to the money it ain't nothing but money  
Love ain't nothing but love when you learn how to love ain't nothing but love  
Party ain't nothing but a party when you party every day it ain't nothing but a party  
Love money party  
Love money party  
Love money party  
Love money party  
We want love money party If I can't trust  
Then why am I giving my heart in exchange for him to love me  
Cause there ain't much  
Difference than a one night stand and one that ain't for me  
Is it too much,  
Cause you hate that you love everything that he do and you can't deny that you wanna  
So what, my heart'll light a fire in this bitch and blow it  
Money ain't nothing  
Money can't buy you love  
I don't care if you sitting on my crib  
Money ain't nothing  
After that right now  
What about the real and the way you feel  
Money get low and the dj stop and the music slow down  
And that shit get blurry  
Love money party yeah Money ain't nothing but money when you get to the money it ain't  
nothing but money  
Love ain't nothing but love when you learn how to love ain't nothing but love  
Party ain't nothing but a party when you party every day it ain't nothing but a party  
Love money party  
Love money party  
Love money party  
Love money party  
We want love money party  
I've been through heartbreaks  
Much more than anybody with a human heart can take  
You know it's something not too good to elaborate  
But I been left in the lobby  
I done been through the fire and I met the girl on the side  
I'm gonna leave it all on the line  
And now they growing up  
And I bet you regret it cause it just don't taste like me Money ain't nothing  
Money can't buy you love  
I don't care if you sitting on my crib  
Money ain't nothing

After that right now  
What about the real and the way you feel  
Money get low and the dj stop and the music slow down  
And that shit get blurry  
Love money party yeah Money ain't nothing but money when you get to the money it ain't  
nothing but money  
Love ain't nothing but love when you learn how to love ain't nothing but love  
Party ain't nothing but a party when you party every day it ain't nothing but a party  
Love money party  
Love money party  
Love money party  
Love money party  
We want love money party Okay I walk in, sorta late
