

Left Lonely

Hotboii

[Intro]

(Uno got the streets going crazy)
(Alright, alright, I got something for that)
(Ayy, 40, what that do?)[Chorus]
I don't need no security for this life (For this life)
Even though my body flooded ice (Flooded ice)
I heard that another nigga died (A nigga died)
Wanna know how I wanna feel about it
Left lonely, I remember back when everybody slept on me
I'm risin' like a mountain, it's gon' be hard to step on me
I don't do these bitches, they too phony for me, ayy
Leave him where you catch him, put his soul in these streets

[Verse 1]

Everywhere I go, I got that pol? in my reach
I ain't cuffin' on these bitch?s, get 'em gone for the week-end
No trustin' them, it's too many
You ain't care 'bout me, so I don't even care how you feeling, ayy
Lowkey a young nigga worth a few million
I don't give a fuck what you would do different
Once you say you love me then you losing me
I don't do no loving, dummy
Plain Rolex, I bust it out, just gotta flood it
I know my flow be sick, how I just got disgusted
I see all these niggas tweet but they get no acknowledgment
Probably hate 'cause they losin', everybody wanna win
But whatchu' hatin' for?
Probably ain't expect that I'd take it this far
Said I'm numb to the pain, I ain't feeling nobody
How you niggas spin, ain't kill nobody

[Chorus]

I don't need no security for this life (For this life)
Even though my body flooded ice (Flooded ice)
I heard that another nigga died (A nigga died)
Wanna know how I wanna feel about it
Left lonely, I remember back when everybody slept on me
I'm risin' like a mountain, it's gon' be hard to step on me
I don't do these bitches, they too phony for me, ayy
Leave him where you catch him, put his soul in these streets

[Verse 2]

Hungry, I just wanted some beef
This shit belong in the street
I don't be wanting to tweet

I ain't stressing 'bout this shit, it ain't no why it gotta be
Let a nigga run down on me, that's a body for the free
Don't need no security for this life, no security
I don't care what you did, could do it twice, ain't no fear in me
Your lil' stepper ran down and he died, how you feeling, G?
No, literally, ran that nigga over, caught him in the streets
Mama, your baby jumped in the streets so young
I remember on me, they would sleep, now they woke up
They ain't never expect a young nigga to go dumb
I'll go broke on war, now that I got more funds[Chorus]
I don't need no security for this life (For this life)
Even though my body flooded ice (Flooded ice)
I heard that another nigga died (A nigga died)
Wanna know how I wanna feel about it
Left lonely, I remember back when everybody slept on me
I'm risin' like a mountain, it's gon' be hard to step on me
I don't do these bitches, they too phony for me, ayy
Leave him where you catch him, put his soul in these streets (Soul)[Outro]
Left lonely, nobody step on me
Hard to step on me
