

# Bring It On Home

## Little Big Town

You got someone here  
Wants to make it alright  
Someone who loves you  
More than life right here You got willing arms  
That'll hold you tight  
A hand to lead you on  
Through the night right here I know your heart  
Can get all tangled up inside  
But don't you keep it to yourself When your long day is over  
And you can barely drag your feet  
The weight of the world is on your shoulders  
I know what you need, bring it on home to me  
You know I know you  
Like the back of my hand  
But did you know I'm gonna do  
All that I can right here? I'm gonna lie with you  
Till you fall asleep  
When the morning comes  
I'm still gonna be right here, oh yes I am So take your worries  
And just drop them at the door  
Baby leave it all behind When your long day is over  
And you can barely drag your feet  
The weight of the world is on your shoulders  
I know what you need, bring it on home to me Baby let me be your safe harbor  
Don't let the water come and carry you away  
When your long day is over  
And you can barely drag your feet  
The weight of the world is on your shoulders  
I know what you need, bring it on home to me Oh bring it on home  
Yeah bring it on home to me  
Home to me  
Oh bring it on, bring it on  
Home to me You got someone here  
Wants to make it alright  
Someone who loves you  
More than life right here
