

Bite My Tongue (feat. Oli Sykes)

You Me At Six

I hate to break it to you but
You're just a lonely star
I try to bring you down but
A level isn't good enough You always do as you believe so
I'm gonna follow suit, and take a seat
I'll watch you fall apart (I'll watch you fall apart)
'cause in the end, what are you without me? I'll slow this down cause I know that you can't keep
up
Oh maybe I, maybe I was wrong from the start
I might be proud but at least I'm proud of something
You've taken pride in becoming nothing
You keep me on the edge of my seat
I bite my tongue so you don't hear me
I wanna hate every part of you in me
I can't hate the ones who made me
You keep me on the edge of my seat
I bite my tongue so you don't hear me
I wanna hate every part of you in me
I can't hate the ones who made me I'm married to the music
For better or for worse
You say that I am privileged but
My gift is my curse
I can't recall the last time
Someone asking how I was
Last I checked I was a fucking wreck
I called for help and no one showed up
So I sit in the dirt
You keep me on the edge of my seat
I bite my tongue so you don't hear me
I wanna hate every part of you in me
I can't hate the ones who made me
You keep me on the edge of my seat
I bite my tongue so you don't hear me
I wanna hate every part of you in me
I can't hate the ones who made me
Just forget what you've learned Just forget what you've heard
The truth should come first
I can't bear the sight of you anymore
You've become what I hate
Sold yourself for a bit of fame
Now the wolves have closed their doors
You wanna drag me down some more

Fuck you

Fuck you

You keep me on the edge of my seat I bite my tongue so you don't hear me

I wanna hate every part of you in me

I can't hate the ones who made me

You keep me on the edge of my seat

I bite my tongue so you don't hear me

I wanna hate every part of you in me

I can't hate the ones who made me
