## **Bomshel Stomp**

## **Bomshel**

We got Tennessee moonshine, chicken, and beer
The bands in the barn and the gangs all here
Just park your car down by the corn
If you're lookin for a good time honk your horn
Bring the dog, call all your friends
Send a shout out to your next of kin

Tell 'em I'm coming just stay in the yard

We're gettin down on the farm Come on everybody gotta move your body to the bomshel stomp...(Bomshel stomp)

Kick up your boots and get back to your roots, do the bomshel stomp...(Bomshel stomp)

Stomp to the right

Stomp to the left

Sheke your botty step, step, step

Grab yourself a coute guy

Honey don't be shy

Everybody romp to the bomshel stomp, yeah

There's no excuse for an empty cup

keep 'em all full till the sun comes up

If you get to hot down by the fire

Tay a roll in the hay if you so desire

There's a million stars in the sky tonight

An ol' full moon it's a beutiful sight

Shake, shake it till the cows come home

Rock'n it all night long Come on everybody gotta move your body to the bomshel stomp...(Bomshel stomp)

Kick up your boots and get back to your roots do the bomshel stomp...(Bomshel Stomp)

Stomp to the right

Stomp to teh left

Shake your booty step, step, step

Grab yourself a cute guy

Honey don't be shy

Everybody romp to the bomshel stomp yeah

The barn, the barn is on fire

Hey ya'll seriously, the barn really is on fire Come on everybody gotta move your body to the bomshel stomp...(Bomshel stomp)

Kick up your boots and get back to your roots, do teh bomshel stomp...(Bomshel stomp)

3X's

Stomp to the right
Stomp to the left
Shake your booty step, step, step
Grab yourself a cute guy

Honey don't be shy

## Everybody romp to the bomshel stomp yeah
