

# Go Get It

## Chinx

All about the gold, never stressin' no probably  
Can't believe a soul never trust nobody  
Get it on your own nigga fuck the co pilot  
Get up on the road, nigga bet the gold find him  
Nigga go get it, huh  
Nigga go get it  
Go get it Ever since a youngin' as far as I remember  
Nigga why don't you stand on my own too  
When you slow it down, start to pay attention  
Start to understand what you goin' through  
Still fuck them niggas on the other side  
Its only big enough for us, we don't coincide  
3 different doors, choose your own fate  
First ones death, don't go inside  
Captivated by the grind, I'm a slave to it  
Kill a nigga for a dime if he came to it  
Back against the wall nigga down to scrap  
When I thought I lost it all nigga found a trap  
Like a DJ fiend screamin' mo' fire  
Young nigga with the dream make it more top  
Could have got lost in the dope spot  
They don't know nothing and they know I...  
All about the gold, never stressin' no probably  
Can't believe a soul never trust nobody  
Get it on your own nigga fuck the co pilot  
Get up on the road, nigga bet the gold find him  
Nigga go get it, huh  
Nigga go get it Go get it Ties on the field, kicking up dirt  
Lost few close to the heart, love hurts  
Sold your soul, nigga was it worth it  
Jealous niggas speakin' 3rd person  
Cause you walked the shoes of a happy mason  
Its your first or last name on the half of David  
Only way to get it was to boss up  
Now a days life it don't cost much  
Cause I wear a fake smile, do that make me fake  
Cause I resemble Mike Brown, do that make me safe  
Does this nigga got the crown, would that make me hate  
Young niggas down to bang like they 808  
Sub conscience. block feel like its on Cat In The Freezer, cold pussy  
Coke Boy, USA dream team  
For the black hope to the green screen All about the gold, never stressin' no probably

Can't believe a soul never trust nobody  
Get it on your own nigga fuck the co pilot  
Get up on the road, nigga bet the gold find him  
Nigga go get it, huh  
Nigga go get it  
Go get it
