

Home (feat. Romans)

Naughty Boy

Red door ends the
driveway on the
street where we met
I take a thousand memories on the road with me
so we never forget
It's been a good year
will be a long day
before we lay our heads down to rest
and if those tears come rolling down I'll pull you close to me
Tell you that we're back there again
Won't be a long time, time
Won't be a long time
Won't be a long time, time
Won't be a long time
Till we get back home
(Till we get back home)
Till we get back home
(Till we get back home)
It won't be long
(Till we get back home)
Till we get back home
(Till we get back home) We've had good times
it's been real love
and i know it's hard to move on
but the place you're sittin' in
in the things we left
it's when we're together we're home
Won't be a long time, time
Won't be a long time
Won't be a long time, time
Won't be a long time
Till we get back home
(Till we get back home)
Till we get back home
(Till we get back home)
It won't be long
(Till we get back home)
Till we get back home Won't be a long time, time
Won't be a long time
That won't be a long time (Till we get back home)
(Till we get back home)
Won't be a long time, time

Won't be a long time
Won't be a long time, time
Won't be a long time
