

# When We Were Friends

Cee-Lo

so many nights, i've lied awake  
thinking of the time it takes to grow up listening to everything our parents say  
they know will bring us fortune i know i've waited for this forever i know it  
but now it's here and i am scared to go out on my own and i pray that you will be  
with me forever and ever right here by my side  
holding me closer and closer  
and if we separate please don't forget the days  
when we were friends when we were friends time flies by so fast you notice you forget  
the most important things in life we make mistakes throughout our time  
we forgive those who cause us strife and harm us i'm here and now i'm wishing we were little  
kids again  
and we could be as carefree as when we first met and i pray that you will be  
with me forever and ever  
right here by my side  
holding me closer and closer  
and if we separate please don't forget the days  
when we were friends when we were friends  
here we stand with our future in our hands  
we'll decide our fate and make our plans  
it's not goodbye but see you later  
look forward to and please wait to meet again  
the memories we've made will be in my heart don't forget me  
i'll miss you  
i've learned so much being with you  
i hope you feel the same way too  
though time will pass our love will last  
a lifetime through and throughout  
and i pray that you will be  
with me forever and ever right here by my side  
holding me closer and closer  
and if we separate please don't forget the days  
when we were friends when we were friends
