

Exit

Black Atlass

Left wondering about you
My tropical flower
You cut like a thorn
And I can't speak
Words about you, baby
You looked like a movie
You love like a freak
I wasn't burnt
Trapped in a rusted cage
I was alone
Until I saw you
Now we exit
Now we exit these waves
Now we exit
Now we exit these waves I was a fool
Caught up in this lifeless flames
Dark as the sky
Before when I get [?]
The curves of the waves
Match it with your waist
You looked like a movie
Ride me through the screen
I wasn't burnt
Trapped in a rusted cage
I was alone
Until I saw you
Now we exit
Now we exit these waves
Now we exit
Now we exit these waves
