

My Roots (feat. Jesse Barrera)

Tribal Theory

First off, let me tell you where we're from
Just some island boys from half-across the world
Residing in the concrete jungle
Dont get me wrong
The roots run deep
I know a couple clans
And you know they from the street
They got that fire
Take ya higher
This is my people so i sing it like a choir
My roots
My roots and culture
Lets take that trip
It wont take long
And once youre there
You feel at home
From the people to the sea
Let me show you what i mean
Life without a care
Said, you would love it there
We're from across the sea
Right there by the marshallese
New Zealand, Philippines, Aloha Hawaii
Tahines down in tonga
Talofa to Samoa
CNMI Guam
Me tell ya where we're from
Its about my roots
My roots
My roots and culture
All my Melanesian people say ya
All my Micronesian people say ya
My Polynesian people say ooh
Oceana people, this one's for you
Island queens to the left
Island kings to the right
Together we can feel the groove all night
No need to stress and no need to fight
Cause if its right, we can vibe until the morning light
My roots
My roots and culture
