[Verse: Pharrell Williams]

I'm sitting on your Louie bag, now you're braining it
Lookin like your little sister came that painted it
Slick, like calamari tentacles
Staring at my chain I kicked off your Jimmy Choos
I weigh 155 pound when I'm soaked ma
That Rolls Royce Phantom, it ain't no joke ma
Weed brownie at 2, but I will not smoke ma

Don't talk about licking if it ain't deepthroat ma

I give you great dick, I make your face flip

Then take ya aboard a nigga Spaceship

Star Trak, my fault I mean Mother Ship

Put on the cameras, try it you'll be loving it

And you can bring your girl and we can get on another tit

Me? I'm a Mount Airy fellow

Or down in Florida wit the Maranello

Driving slow watch the mami mouthing "hello"

Get wit ya man if you want love you better

Trying to get +Dirty+ like +Aguilera+

Yep, he's a skater the kids that's rhyming

But I'm also young and rich wit a big ass diamond[Chorus][Bridge][Verse: Loon]

Hey yo my intro's crazy, I'm in a new Mercedes

Rocks the same colors as daisy's

Y'all niggaz is lazy, I'm on my j-o-b

And that's why ya hate on me

But here's the update, Loon ain't got nothing but cake

And power from here to upstate

Y'all sweet as cupcakes

So why niggaz stay wit tough faces?

I stay trying to figure what Loon and Puff make[Verse: P. Diddy]

Bitch please! you ain't been in a helicopter

Flying 'round Jesus statue wit a mountain in Brazil

Bitch please! you ain't never been to Guatemala

Eating shrimp by the dollar taking flights to Negril

Bitch please! and you ain't been wit Lenny and Pharrell

Me and Loon in the hills giving mami's the chills

Bitch please! and you ain't never seen a hotter nigga in the game

12 years selling records by the mill, c'mon now[Chorus][P. Diddy] Let's work (huh yeah), let's work

Let's work (huh yeah), let's work
