

Bad Boy

Queen Naija

I never really had a bad boy
You know I've always been a good girl
Crazy how it happened so fast boy
The way you rocking my world
The way you rocking my world Yeah you're my distraction
Love our connection
I see so much when I look at you
You get potential
Time is essential
But I'ma take my time with you
'Cause you need it
You just need someone to keep it real with you
And I see that
I'ma be the one to put that seed in you
You don't gotta worry
I won't judge you from your past
I know you're not the first
But I'll make sure that you're my last
We live two different lifestyles baby
But we can change that
Just promise not to hurt me
'Cause you know I told you that
I never really had a bad boy
You know I've always been a good girl
Crazy how it happened so fast boy
The way you rocking my world
Boy I think you need a good girl
Someone to make you do better
Maybe I could be a good girl
I could make you do better I ain't really used to it but I like it
'Cause you're so enticing
Love the way you walk and how smooth you talk
How you move in silence
How fast you be driving
Hold me when I'm crying
And as long as you need me
You know I'm always riding
You open up to me and show me something new
Taught me how to hold my own
I fight myself while holding you
If it was up to me I'd hold for ever (ever)
Up somewhere that we can go together (so it's a crazy thing)

I never really had a bad boy
You know I've always been a good girl
Crazy how it happened so fast boy
The way you rocking my world
Boy I think you need a good girl
Someone to make you do better
Maybe I could be a good girl
I could make you do better
So, so bad in a really good way
By the time I'm done with you
You gon' wanna stay
But it's so so bad in a really good way
Such a bad boy but I'll make you good for me
I could make you do better
I could make you do better
I could make you do better
I could make you do better
I could make you do better
