

Larry

Buffalo Tom

When I sleep is when you rise
Get out of bed, wipe the sleep from your eyes
I shut my eyes, all the world drops dead
Now's the time friend of mine With a passage to
A passage from your Daily Missal
We taught that cat to crawl When I sleep is when you rise
Get out of bed, wipe the sleep from your eyes
My heart and soul are in your hands
Now's the time friend of mine With a passage to
A passage from your Daily Missal
We taught that cat to crawl
Now's the time friend of mine
And now's the time friend of mine
