

# Drive (feat. The Chain Gang of 1974)

Jai Wolf

Please take me back  
Just take me back to that time of innocence  
Lay down with me but keep it clean so the secret never ends  
Everything I wanna do on this night just feels so right  
Everything I wanna do on this night just feels so right  
Please let me lay my head in your garden  
Just let me fall asleep in your garden  
Please let me lay my head in your garden  
Just let me fall asleep in your garden  
I've been hanging on to you  
I've been naked with your youth  
Everything I wanna do on this night just feels so right  
Everything I wanna do on this night just feels so right  
Please let me lay my head in your garden  
Just let me fall asleep in your garden  
Please let me lay my head in
