

Obey (with YUNGBLUD)

Bring Me The Horizon

Another day, another post-traumatic order
Brainwashed and feeling fine
I bit off more than I could chew when I looked closer
So I stabbed a fork in my eye
Think I'm losing my fucking mind, don't know where to turn, now I'm blind
Destroy yourself, it feels so good to fade away
Why do you wanna hurt yourself? Die for something else?
Don't let your conscience get in the way
Obey, we hope you have a lovely day
Obey, you don't want us to come out and play away now, now
There's nothing to see here, it's under control, we're only gambling with your soul
Obey, whatever you do, just don't wake up and smell the corruption
Do you feel that? Yeah
Another day, another systematic nightmare
Commemorate a wonderful life
Bite me first, I'll bite you back, melodramatic laughter
I stabbed a knife in my eye
Think I'm out my fucking mind, brainwashed and I'm feeling fine
Destroy yourself, it feels too good to fade away
Why do I wanna hurt myself? Should I die for something else?
I let my conscience get in the way
Obey, we hope you have a lovely day
Obey, you don't want us to come out and play away now, now
There's nothing to see here, it's under control, we're only gambling with your soul
Obey, whatever you do, just don't wake up and smell the corruption
When you feed them, it's lethal
Tell me how you're gonna hurt yourself
You call yourselves peaceful
You monsters are people
You fucking monsters are people
Obey, we're gonna show you how to behave
Obey, it's nicer when you can't see the chains
Obey, we hope you have a lovely day
Obey, you don't want us to come out and play away now, now
There's nothing to see here, it's under control, we're only gambling with your soul
Obey, whatever you do, just don't wake up and smell the corruption
Smell the corruption
Smell the corruption
