## Caribou

If you wanna know my secret  
What are you waiting for  
If you wanna ask me something  
I can tell you so much more  
If you wanna cause me trouble  
It's not up to me  
I know that there's something missing  
Does it mean you're leaving me?  
How can we fix our love  
Now that we know it's broken  
I can only take so much  
Your kiss and your touch are both like a poison  
Where did it all go wrong  
Why is this what we've chosen  
I can only do so much to fix  
All the things that went unspoken
