

Gold (feat. Tyga)

Neon Hitch

There's no light in this room
It's all right, we got you, you shine like gold
You walk by, cause a scene
All the girls, they agree, you shine like gold
It's good to meet you, beautiful creature
You got my heartbeat racing like a cheetah
Don't need no lights, so turn them off
Give me a Tylenol because my head keeps spinning like a disco ball
I can tell that your love is blinding
Electric touch, I feel you inside me
And I wanna know, yeah, I just gotta know
Can you light me up when we're alone
There's no light in this room
It's all right, we got you, you shine like gold
You walk by, cause a scene
All the girls, they agree, you shine like gold
It's like I'm speechless and I can't speak
'Cause you took the words from me, you are my weakness
You're sweeter than the cinnamon, a bit is all I want
You got the whole room glowing, everybody knows
I can tell that your love is blinding
Electric touch, I feel you inside me
And I wanna know, yeah, I just gotta know
Can you light me up when we're alone
There's no light in this room
It's all right, we got you, you shine like gold
You walk by, cause a scene
All the girls, they agree you shine like gold
What you want, diamonds and gold
Lifestyles of a Penthouse floor
Right now I'm kinda into what you like
So tomorrow night, no regrets, let it all flow
And if you got some bad bitches
I take 'em nightly court-side, looking at a Laker
Then later she calling me, baby
Like what comes after labor, labor, labor
Rich-ass neighbors
Gold in a car, now we shine like sabers
Two million ladies, two million light years
And I still wouldn't change ya
Waiter, waiter, can I get another shot of that 'Tron
'Cause I'm on a whole 'nother level called gone
She my queen, I'm King Hakeem
No limelight gon' ever turn me shady, I dream
There's no light in this room
It's all right, we got you, you shine like gold
You walk by, cause a scene
All the girls, they agree you shine like gold
