

# Survivors

Selena Gomez

You built me from a broken heart  
With bricks you made from broken parts  
You fixed the paints so we could start  
So now what's mine is ours  
I still have proven for my scars  
The first time always fall so far  
Those healing wounds he'll twice as hard  
But now what's mine is ours  
But now what's mine is ours We are survivors  
We are survivors of the wild  
We are survivors  
We are survivors of the wild  
My sweet devoted count apart  
We catch each other shooting stars  
However close, however far  
Whatever's mine is ours  
Whatever's mine is ours We are survivors  
We are survivors of the wild  
We are survivors  
We are survivors of the wild  
We are survivors  
We are survivors of the wild  
We are survivors  
We are survivors of the wild We are survivors of the wild We are survivors of the wild  
We are survivors  
We are survivors of the wild  
We are survivors  
We are survivors of the wild
