

Four Letter Word

Escape the Fate

Love is a four letter word
Don't say it's over
Push me away then you pull me closer
Maybe
We're just addicted to the pain
Cause we've been here before
So why do we keep coming back for more
Just tell
Why do you do the things you do
Why you gotta be so complicated
Look at what you put me through
Maybe your heart was built for breaking
I need to walk away
It's more than I can take
What you see just makes me hurt
Love is a four letter word
Love is a four letter word
I was
Just fine
Before you robbed my like a gold mine
I know
I need to find another way
Cause we've been here before
I know I can't do this anymore
Just tell me
Why do you do the things you do
Why you gotta be so complicated
Look at what you put me through
Maybe your heart was built for breaking
I need to walk away
It's more than I can take
What you see just makes me hurt
Love is a four letter word
Love is a four letter word
The way that you love
Feels like hate
So I must be crazy
If I stay
Why do you do the things you do
Why do you gotta be so complicated
Look at what you put me through
Just tell me

Why do you do the things you do
Why you gotta be so complicated
Look at what you put me through
Maybe your heart was built for breaking
I need to walk away
It's more than I can take
What you see just makes me hurt
Love is a four letter word
Love is a four letter word
Love is a four letter word
Love is a four letter word
Love is a four letter word
