

Enabler

Beca

Enabler (Enabler)
Work so hard to get your love
Don't let go
Work so hard but it's not enough
Enabler (Enabler)
Work so hard to get your love
Now it's my turn
Not the only one who can play it rough
Greedy eyes take in and savor
Before I outrun
Every time we touch I waiver
Asking are you the one
From burning hot to freezing
Again I'm on the floor
Give me something to believe in
Hold me down make me secure
Enabler (Enabler)
Work so hard to get your love
Don't let go
Work so hard but it's not enough
Enabler (Enabler)
Work so hard to get your love
Now it's my turn
Not the only one who can play it rough
Raise up my blood pressure
Until I'm breathless
Break the earth down with your tremors
Rendered defenseless
Nothing will contain
Won't stay inside this pain
Can't expect some things to change
I'm rising up again
Enabler (Enabler)
Work so hard to get your love
Don't let go
Work so hard but it's not enough
Enabler (Enabler)
Work so hard to get your love
Now it's my turn
Not the only one who can play it rough
Now we're torn apart
Ripping up my bleeding heart
There's not turning back
Now our world's collapsed
And when I've gone

Will you miss me when i've moved along
Fall into the daylight
It's the time to burn bright
Enabler (Enabler)
Work so hard to get your love
Don't let go
Work so hard but it's not enough
Enabler (Enabler)
Work so hard to get your love
Now it's my turn
Not the only one who can play it rough
Enabler (Enabler)
Work so hard to get your love
Don't let go
Work so hard but it's not enough
Enabler (Enabler)
Work so hard to get your love
Now it's my turn
Not the only one who can play it rough
