

Here We Are

Emmylou Harris & Rodney Crowell

Did you say that you've been searching for
A place you've never been?
Well here it is
Here it is And you've been down there on the bottom
And looking out for a friend
Here I am
Here I am (Chorus)
We've both grown tired
Of running after rainbows
Here we are
Darling, here we are
When it feels like you've been drifting in
And you don't know where you've been
Come on in
You can come on in And before you've seen the backdoors
That lead you out of town
Turn around
You can turn around (Chorus)
We've both grown tired
Of running after rainbows
Here we are
Darling, here we are
We've both grown tired
Of running from each other
Here we are
Darling, here we are Here we are
Here we are
