Rock Me

Steppenwolf

She asked me maybe I could share her sorrow

For all the men that tried to treat her wrong

Though just a baby, awaiting her tomorrow

It's rock me baby, rock me baby, all night longShe needs an answer to her confusion

Someone to guide her with tenderness

But then she's askin' for a solution

All that she gets, you know, is something like this I don't know where we come from

Don't know where we're goin' to

But if all this should have a reason

We would be the last to know

So let's just hope there is a promised land

Hang on 'til then as best as you can Everybody's ill, you know it fills her with compassion

That's why she tries to save the world alone

She helps the needy in her own fashion

And tries to give them all her ownShe needs an answer to her confusion

Someone to guide her with a tenderness

But when she's askin' for a solution

All that she gets, you know, is something like thisI don't know where we come from

Don't know where we're goin' to

But if all this should have a reason

We would be the last to knowSo let's just hope there is a promised land

Hang on 'til then as best as you can

Rock me baby, rock me baby, all night long

Rock me baby, rock me baby, all night long

Rock me baby, rock me baby, all night long
