

Keep in Mind

LoCash Cowboys

Keep in mind as you head out in that cold
Don't forget to take your coat, TV's sayin' snow,
Keep in mind that old car of yours
Ain't no good on slippery roads and I won't sleep a wink
With you out there all alone I know those dreams you're tryin' to chase,
You want 'em now but they won't wait
Last thing you're thinkin' about is
Slowin' it down and the ones you left behind
But I'm always thinkin' of you,
Cause when somebody loves you that's what they do
All of the time, so keep in mind I'll be waitin' on a call in this little house you grew up in
When your world was safe and small
Ease my mind with the sound of your voice
Let me know no matter where you are
However far, your home is still your home
I know those dreams you're tryin' to chase,
You want 'em now but they won't wait
Last thing you're thinkin' about is
Slowin' it down and the ones you left behind
But I'm always thinkin' of you,
Cause when somebody loves you that's what they do
All of the time, so keep in mind The family and the friends who prayed,
Who cried and watched you drive away
Askin' God to please keep you in mind I know those dreams you're tryin' to chase,
You want 'em now but they won't wait
Last thing you're thinkin' about is
Slowin' it down and the ones you left behind
But I'm always thinkin' of you,
Cause when somebody loves you that's what they do
All of the time, so keep in mind
There's angels all around you, keep in mind
We're always thinkin' about you, keep in mind
We know you're gonna make it
But before you leave and spread your wings
I hope you take these things to keep in mind
