

I See The Light

Hot Tuna

In this world I'm living in I see the light
Sins are gone, now I know what is wrong and right
Morning came on slowly pushing back the night
It's good times now that I can see the light
On this road I'm walking on I see my way
Paradise I'm living for each and every day
'Bout the crossroads of the past, nothing more to say
It's good times now but we can see our way
In this sea I'm moving through, feel my life complete
With the one I'm living for time is, oh, so sweet
Feeling us together, living in the bright
It's good times now, we can see the light
In this world I'm living in I see the light
Sins are gone, now I know what is wrong and right
Morning came on slowly pushing back the night
It's good times now that we can see the light
